Appendix A Reports

James Finch had circulated his written report to councillors and updated councillors on SCC Highways views on the speed survey undertaken in The Street. The speed survey had shown a mean average speed of 28 mph from an average of 624 / 631 South / North bound vehicles each day. As a result it will be very difficult to get any enforcement for the police with these speeds. As there still may be anxiety in the village, James was asked by the councillors to see what opportunity existed to fit some Vehicle Activated Speed signs in the village. PCSO Baxter gave the Police Report that showed no reported crimes in the parish during June.

Appendix B Routine Correspondence

No correspondence received by post.
